

Supply Chain Professionals Network Group

The Supply Chain Professionals Network group is comprised of high-level people from diverse industries. We represent the entire spectrum of supply chain and operations management professions. We are employed by companies, doing consulting, and in transition. Some of us are open to different avenues, including entrepreneurial ventures. Our meetings offer both networking and educational opportunities. We often have guest speakers for part of the meeting. Topics vary and ideas are welcome. There are no dues.

Everything we share in the group and via email is considered confidential. We have all agreed to this. If someone wants to conduct a confidential search, or just start networking with others, joining this group will not impede that. Many of the people in the group have landed jobs (some with the assistance of the people in the group) and continue to come every month! Our goal is to be each other's trusted confidante.

We meet on the third Saturday of each month at Lincoln Park, 12100 Singletree Lane, Eden Prairie, MN starting at 8 AM. Coffee and tea are available. We alternate having someone in the group bring a light snack.

Contacts for further information include:

- Russ Weybright, President of RW Solutions, Inc. Email: rweybright@rws-inc.com. His cell is 952-237-3682 and is also a good number to call if you get lost trying to find the place the first time.
